

Wild Flower Water Co-op Bylaws

AMENDMENT I

April 11, 2023

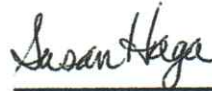

Paragraph H: will include the following statement. Each household will be required to have a water meter and pay the applicable funds associated with that meter requirement. Example: If an individual or individuals have a two-acre parcel and decide to have a second household on one of the acre's this will be the requirement. When subdividing property, the individual or individuals subdividing said property will be responsible for any upgrades required to provide water services to said properties. For example, engineering, water service line extensions, and costs incurred by the Co-op to provide this service.
