

Status Report 9.17.25

The boil notice remains in effect until further notice.

Although you may smell chlorine in your water that does not mean ADEQ has lifted the boil notice. Water quality samples from Joshua Valley Utility have been taken and submitted to a lab for testing. However, until Joshua Valley Utility receives results from those samples showing that the water is safe to drink, the boil notice remains in effect.

Joshua Valley Utility would like to thank the numerous volunteers, the State, County and health officials as well as our customers for their response to this emergency.
