

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
- PRECAUTIONARY BOIL NOTICE EXTENDED**

UPDATE:

Joshua Valley Utility Company is extending the precautionary boil notice issued on 9.7.2025. Until the utility has informed you the water is safe to drink, we advise you to use bottled water OR boil all tap water before consumption/use. Bottled water will be available at the Meadview Community Civic Center, 247 Meadview Blvd. Handwashing stations and porta-potties are also available at that location. Potable Water is available by standpipe courtesy of Lake Mead City Community Co-Op located at Smith Road and Sandy Point. Non-potable water for domestic use is available at the Meadview Fire Department. Joshua Valley Water staff are working as quickly as possible to safely restore service to customers. Visit <https://southwesternutility.com/utilities/joshua-valley-utility> to view the latest updates. For additional information on the safety of your drinking water visit : <https://www.cdc.gov/water-emergency/about/index.html>

ORIGINAL NOTICE:

Due to the damage caused by the storm on 9.6.25 Joshua Valley Utility Company has issued a precautionary boil notice. As a precaution, we advise you to either utilize bottled water or boil your tap water for a minimum of 3 minutes before using it for drinking or preparing food that is not otherwise cooked.

Inadequately treated water may contain disease-causing organisms. These organisms include bacteria, viruses, and parasites which can cause symptoms such as nausea, cramps, diarrhea, and associated headaches. These symptoms, however, are not caused only by organisms in drinking water, but also by other factors. If you experience any of these symptoms and they persist, you may want to seek medical advice.

What is being done:

We are continuing to make repairs to the system, which includes adding chlorine to disinfect the water. We are working with our Certified Drinking Water Operator to make the repairs as quickly as possible.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses).

You can do this by posting this notice in a public place or distributing copies by hand or mail.
